## Major Projects

### Music Player [Code Link](#)

- Developed a dynamic online music player with multiple album selections using HTML, CSS, and JavaScript.
- Created a user-friendly interface with custom controls for play, pause, and track navigation.
- Implemented playlist functionality allowing users to switch between different albums and songs smoothly.
- Ensured that the music player is fully responsive, providing a seamless experience across different devices.

### Task Manager [Live Demo](#)

- Developed a React-based task manager with add, edit, and delete functionality.
- Used localStorage to persist tasks across sessions.
- Designed a responsive UI with Tailwind CSS for a modern look.
- Designed a responsive layout to ensure a seamless user experience across various devices.

### Two Good Co [Live Demo](#)

- Developed a responsive single-page website using HTML, CSS, and JavaScript.
- Integrated GSAP animations for smooth transitions and interactivity.
- Designed a clean, user-friendly layout for seamless navigation.
- Ensured compatibility across devices and optimized loading speed.
